

**EDM**

The EDM is an integrated electric powertrain solution featuring the HVH250 motor + 8.28:1 gearing and differential.

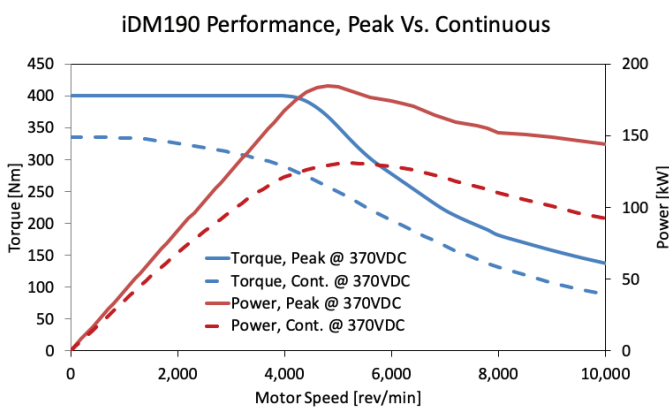

**FEATURES**

- Single package to reduce complexity for vehicle integrators and manufacturers
- Utilizes components already proven in production
- Motor & Gearbox: BorgWarner eDM (based on HVH250-115D motor and 8.28:1 gearing)
- Packaging friendly

# Mid Voltage 200-420 VDC

### If Paired with CM200DX:

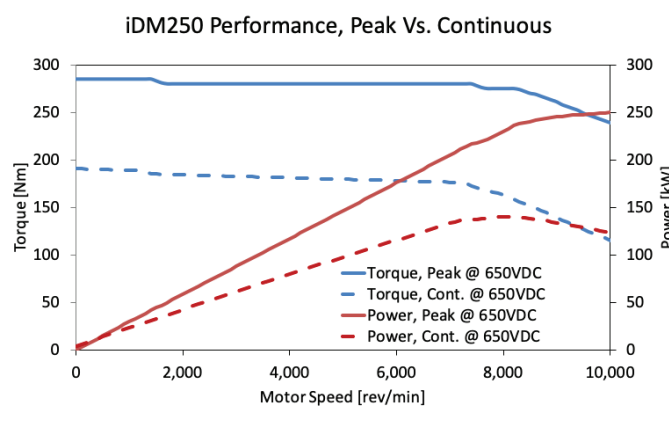

<b>Peak Torque</b>	3400 Nm to the wheels
<b>Peak Power</b>	190 kW
<b>Gear Ratio</b>	8.28:1
<b>Mass</b>	~90 kg
<b>Launch</b>	2021

# High Voltage 500-800 VDC

### If Paired with CM200DZ:

<b>Peak Torque</b>	2300 Nm to the wheels
<b>Peak Power</b>	250 kW
<b>Gear Ratio</b>	8.28:1
<b>Mass</b>	~90 kg
<b>Launch</b>	2021
